

Transfer of securities to BNP Paribas Arbitrage Issuance B.V. (“BNPP IBV”) pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 19 November 2015, The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) (“**RBS**”) and BNP Paribas S.A. (incorporated in France and with its registered office at 16, Boulevard des Italiens, 75009 Paris, France) (“**BNPP**”), acting through its London Branch, announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme, whereby certain assets and liabilities related to RBS’s structured retail investor products and equity derivatives business would be transferred to BNPP pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the “**Part VII Scheme**”).

The Part VII Scheme took effect on 7 December 2015 (the “**Effective Date**”).

On the Effective Date, BNPP, acting through its London Branch, became the issuer of those securities originally issued by RBS that were transferred pursuant to the Part VII Scheme. Immediately after the transfer of those securities to BNPP, acting through its London Branch, the role of the issuer under those securities was transferred, also under the terms of the Part VII Scheme, to BNPP IBV, a wholly owned subsidiary of BNPP. As part of the Part VII Scheme, BNPP guarantees all the obligations of BNPP IBV arising in respect of the transferred securities.

Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to “RBS”, in its capacity as issuer of the transferred securities, being construed as references to “BNPP IBV”.

Details of the securities that have transferred under the Part VII Scheme as well as further information on the Part VII Scheme generally can be viewed at <http://warrants.bnpparibas.com/>

Transfers of securities to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 6 February 2010 ABN AMRO Bank N.V. (registered with the Dutch Chamber of Commerce under number 33002587) changed its name to The Royal Bank of Scotland N.V. ("**RBS N.V.**") and on 1 April 2010 ABN AMRO Holding N.V. changed its name to RBS Holdings N.V.

On 23 September 2011, RBS N.V. and The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) ("**RBS plc**") announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme whereby eligible business carried on in the United Kingdom by RBS N.V. would be transferred to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the "**Part VII Scheme**"). The Part VII Scheme took effect on 17 October 2011 (the "**Effective Date**").

From the Effective Date, RBS plc became the issuer of those securities originally issued by RBS N.V. which were transferred to RBS plc pursuant to the Part VII Scheme. Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to "RBS N.V." being construed as references to "RBS plc". Details of these amendments are set out in the Scheme Document which can be viewed at http://www.investors.rbs.com/RBS_NV.

For details of which securities were transferred to RBS plc pursuant to the Part VII Scheme, investors should refer to http://www.investors.rbs.com/RBS_NV or, for securities issued from on or about 21 July 2011, investors should refer to the terms of the issue or offer documents (including term-sheets) (if they indicate that RBS plc was expected to become the issuer of the securities as a result of the Part VII Scheme, then RBS plc has become the issuer, unless the securities have been exercised, redeemed or repurchased and cancelled prior to the implementation of the Part VII Scheme).

For further details of the Part VII Scheme generally, investors should refer to http://www.investors.rbs.com/RBS_NV.

APPENDIX

S&P Custom/ABN AMRO Africa ex South Africa Resources TR Index Description (“Index Description”)

1. General Description

The Index is a Total Return Index designed to reflect the performance of the Securities of companies which derive more than 50% of their revenues from commodities business in Africa, excluding South Africa (each such company a “**Africa Resources Company**” and together referred to as the “**Africa Resources Companies**”) that are included in the Index. Only ordinary or preference shares or units of such Africa Resources Companies are eligible for inclusion in the Index.

The Index Calculator will make determinations as regards the Securities which are eligible for inclusion within the Index on the basis of the criteria set in Section 3 and will determine their Weights. In addition, on the basis of the formula for and method of calculating the Index (see section 4 below), the Index Calculator will calculate and publish the Index Value as set out below.

The Index Components will, initially and on each Re-weighting Date, be modified market capitalisation weighted, with a maximum weight of 20%.

The Index shall comprise at any time the Minimum Number of Index Components and ceases to be calculated if there are less than 6 Qualifying Share Companies.

2. Initial Index Composition and Minimum Number of Index Components

The Index will initially comprise the Shares of the following 10 companies selected by the Index Calculator from Qualifying Shares on the Index Launch Date.

On the Index Launch Date the value of the Index will be EUR 100 (“**Initial Index Value**”) and will be notionally composed of Shares in the following Share Companies:

3. Index Selection Criteria and Selection Procedure

To qualify for inclusion in the Index, each Security must meet the following selection criteria, together referred to as the “**Selection Criteria**”:

- (i) The Security must qualify as an Authorised Asset; and
- (ii) At the date of selection only:
 - a. The company which is the issuer of a Security must have a market capitalisation greater than EUR 150,000,000 (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on the respective Bloomberg page <Bloomberg Code Equity DES> (“**Minimum Market Capitalisation**”), if any; and
 - b. The Security must have an ADT 3M greater than EUR 500,000 (“**Minimum Liquidity**”); and

- c. The company which is the issuer of the Security must derive more than 50% of its revenues from commodities business in Africa excluding South Africa, as determined by the Index Calculator;
and

- (iii) Only those Securities which do not meet Technical Constraints will be included in the Index.

If any of the above mentioned data provider pages are not available, the Index Calculator shall take the data from a page replacing the stated page or if no replacement page is available from any other data provider as selected at the reasonable discretion of the Index Calculator. If, following the reasonable efforts of the Index Calculator it determines, in its sole and absolute discretion, that no data provider can provide the above mentioned data, the Index Calculator may determine not to include the Security on the basis that it does not meet the Selection Criteria.

A list shall be compiled of Qualifying Share Companies (such list, the "**Selection List**"). The Index Components are selected in accordance with the following selection procedure ("**Selection Procedure**"):

- (i) If a Qualifying Share Company has issued several classes of Securities, the Index Calculator shall take the class of Security which best represents the Qualifying Share Company, as determined by it at its sole and absolute discretion, and which complies with all of the Selection Criteria.
- (ii) The Qualifying Share Companies on the Selection List are ranked in descending order by their market capitalisation in EUR (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on Bloomberg. The Qualifying Share Company with the highest market capitalisation is listed first with a rank equal to 1.
- (iii) If the Selection List comprises 10 or more Qualifying Share Companies, the top 10 Qualifying Share Companies using the above ranking, or, where the Selection List comprises less than 10 Qualifying Share Companies, all the Qualifying Share Companies, are included in the Index, and the respective Weight of each Index Component is calculated in accordance with the definition of "Weight i" in section 13

4. Index Calculation

The value of the Index ("**Index Value**") will be calculated and published once a day by the Index Calculator on every Business Day t, subject to a Market Disruption Event, according to the following formula:

$$\text{Index Value}_t = \sum_{i=1}^N (\text{Number of Shares})_{i,t} \times (\text{Price})_{i,t}$$

Distributions made by a Share Company in respect of a Share are notionally reinvested proportionally according to each Share's weight in the Index. The Index will then be calculated as follows, for all Shares i , ($i = 1, \dots, N$)

$$\text{Number of Shares}_{i,ex} = \text{Number of Shares}_i \times [1 + D_j \times \text{Number of Shares}_j / \text{Index Value}_{ex}]$$

whereby

$$\text{Number of Shares}_{i,ex} = \text{Number of Shares of the } i\text{th Share following the ex-date;}$$

$$D_j = \text{Distributions of the } j\text{th Share; and}$$

$$\text{Index Value}_{ex} = \text{Index Value as defined above, but using the ex-dividend price of the } j\text{th Share.}$$

5. Re-weighting of the Index

Following the initial composition of the Index on the Index Launch Date, the Index Calculator will, on each Re-Weighting Date, review the notional composition of the Index and re-weight the Index Components (each such procedure a "**Re-weighting**") subject to the requirement that each of the newly selected Share meet the Selection Criteria.

The Index Components shall be notionally re-weighted with effect from the Re-weighting Date, subject to the occurrence of a Market Disruption Event.

The basis for a Re-weighting shall be the Prices of the Shares on the Re-weighting Date.

$$(\text{Index Value})_{\text{before Re-weighting}} = (\text{Index Value})_{\text{after Re-weighting}}$$

If on any Trading Day during the period from (and including) the preceding Re-weighting Date to (but excluding) the current Re-weighting Date a De-listing Event, Removal Event or Technical Constraint Event has occurred and the number of Index Components is below the Target Number, the number of the Index Components may be increased up to the Target Number of Components on the current Re-weighting Date according to the Selection Procedure.

In the event that a Market Disruption Event has occurred in relation to any actual or prospective Index Component on any Re-weighting Date, then such actual or prospective Index Component shall not be so included or removed, as the case may be, in the relevant Re-weighting.

6. Index Component De-listing and Removal, Technical Constraints

The Index Calculator will determine on every Trading Day whether or not with respect to each Index Component a De-listing Event, Removal Event or Technical Constraints Event (each an “**Event**”) has occurred. If an Event occurs in respect of a Share, the Index Calculator shall notionally invest the value of the affected Share with effect from the De-listing Date, Removal Date or Technical Constraints Date (each an “**Event Date**”) according to the following (“such action an “**Event Action**”):

- (i) substitute by the next eligible Qualifying Share in the Selection List, which is not already an Index Component and is ranked highest in terms of market capitalisation; or otherwise
- (ii) invest pro rata in the remaining Index Components if no other Qualifying Share exists, which is not already an Index Component, subject to the Minimum Index Component requirement.

The basis for the substitution shall be the respective Price on the Trading Day preceding the relevant Event Date.

7. Corporate actions

If a corporate action other than dividends distributions related to one of the Index Components takes place, the Index Calculator will apply its standard methodology for corporate actions as set out on the Index Calculator webpage www.standardandpoors.com under “Policies and Methodology” and as amended from time to time.

8. Publication of the Index

The Index Value will be published by the Index Calculator on each Business Day on Bloomberg page ABNZAFRI and on Reuters page .ABNZAFRI. The Index Value will be published on each Trading Day after the close of trading in London.

The list of Index Components and their Weights are available, upon reasonable request, from the Index Calculator on any Business Day.

9. Market Disruption Pertaining to Index Calculation or Re-weighting

If, in the determination of the Index Calculator, a Market Disruption Event has occurred on any Business Day, the Index Value will be calculated and published by the Index Calculator on the first succeeding Business Day, on which the Index Calculator determines that there is no Market Disruption Event, unless the Index Calculator determines that there is a Market Disruption Event occurring on each of the 5 Business Days immediately following the original Business Day on which (but for the Market Disruption Event) the Index Value would have been calculated and published by the Index Calculator. In that case (regardless of the Market Disruption Event) the Index Calculator shall determine the Price of the Share affected by the Market Disruption Event and the Index Value having regard to the then prevailing market conditions, the last reported trading price of the respective Shares and such other factors as the Index Calculator determines to be relevant.

If, in the determination of the Index Calculator, a Market Disruption Event has occurred on any Re-weighting Date or Event Date, the Re-weighting or Event Action shall be postponed to the first succeeding Trading Day on which the Index Calculator determines that there is no Market Disruption Event, unless the Index Calculator determines that there is a Market Disruption Event occurring on each of the 5 Trading Days immediately following the original date which (but for the Market Disruption Event) would have been a Re-weighting Date or Event Date. In that case (i) the fifth Trading Day shall be deemed to be the Re-weighting Date or Event Date (regardless of the Market Disruption Event); and (ii) the Index Calculator shall determine the Price of the Share affected by the Market Disruption and the Index Value having regard to the then prevailing market conditions, the last reported trading price of the respective Index Components and such other factors as the Index Calculator determines to be relevant.

10. Adjustment Events

This Index Description, and each of the clauses herein, may be adjusted, amended, deleted or otherwise altered by the Index Calculator, with the prior written consent of the Index Sponsor, at any time, on such date as the Index Calculator shall designate. These adjustments may include, but are not limited to the following:

- (a) *Illegality*: any adjustments required because it has become unlawful in any applicable jurisdiction for the Index Sponsor to sell or purchase any of the Index Shares; or

- (b) *UCITS*: any adjustments made to the Index to ensure that the Index complies with the requirements of the Council Directive of 20 December 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (No 85/611/EEC) as amended from time to time and supplemented in similar laws or regulations for financial indices; or
- (c) *Index Calculator*: any adjustments required as a result of the Index Calculator ceasing or advising it will cease, for any reason, to calculate the Index; or
- (d) *Clarificatory*: any adjustments required for clarificatory or for minor or technical reasons; or
- (e) *Integrity*: such other adjustments as are necessary to ensure the integrity of the Index.

each an “Adjustment Event”. The Index Calculator and Index Sponsor shall publish notices of any Adjustment Events in accordance with Section 12 below.

11. Termination

On any Trading Day, the Index will cease to be calculated if the Minimum Index Component requirement is not satisfied.

If, on any Trading Day, the Index Calculator: (i) is, for any reason, other than a Market Disruption Event, unable to calculate the Index; or (ii) is in material breach of any provision of the Index Calculator Agreement, as determined by the Index Sponsor, at its sole and absolute discretion, the Index Sponsor may in accordance with the terms of the Index Calculator Agreement terminate the appointment of the Index Calculator (“**Index Calculator Termination Event**”).

On the occurrence of an Index Calculator Termination Event, the Index Sponsor may:

- (a) appoint a replacement Index Calculator as it determines in its sole and absolute discretion and shall publish a Notice in accordance with section 12 below, identifying the replacement Index Calculator; or
- (b) in the event a replacement Index Calculator can not be appointed within 5 business Days, the Index will cease to be calculated, unless the Index Sponsor, as it sole and absolute discretion, determines to extend such period. Any suspension of calculation of the Index while a new Index Calculator is appointed will be treated as if it were a Market Disruption Event.

12. Notice

On the occurrence of a De-Listing Event, Removal Event, Technical Constraints Event or Adjustment Event (each an “**Event**”), it is the Index Calculator’s intention that notice of the occurrence of such Event will be published on Bloomberg page ABNZAFRI and on Reuters page .ABNZAFRI .

The Index Calculator may, with the prior written consent of the Index Sponsor, publish such additional notices relating to the Index as it determines necessary, but is under no obligation to publish any particular notice. Such notices may be published on Bloomberg page ABNZAFRI and on Reuters page .ABNZAFRI, the Index Sponsors web page www.abnamromarkets.com, or the Index Calculators webpage www.standardandpoors.com.

13. Definitions

“**ADT 3M**” means the average daily value traded of a Security. The ADT 3M is calculated on the basis of the last 3 months in EUR or the equivalent amount in another currency calculated by applying the Exchange Rate. The ADT 3M is provided by Bloomberg using the <AVG_DAILY_VALUE_TRADED_3M> function or an equivalent;

“**Authorised Assets**” means any Security in a company which is traded on a Relevant Exchange in a Regulated Market in an Authorised Country. The Index Calculator will, at the request of the Index Sponsor, amend this definition of Authorised Assets on each Re-weighting Date;

“**Authorised Country**” means EU member states, USA, Canada, Australia. The Index Calculator will, at the request of the Index Sponsor, amend this list of Authorised Countries on each Re-weighting Date;
